

17.09.2019 | LÜTZE Catalogue 'Cable Solutions 2019'

New cable catalogue available

The automation specialist LÜTZE, Weinstadt, has published the new print catalogue 'Cable Solutions 2019' with new products from the fields of network and bus cables, motor cables, servo cables and feedback cables, and also control and electronic cables. LÜTZE's has published this new cable catalogue has a reaction to the growing importance of highly flexible industrial cables.

The new catalogue focuses on C-track-capable Ethernet cables and servomotor cables. Highlights of the 128-page catalogue are the new C-track-capable Single Pair Ethernet cables and the torsion-capable Cat. 6A and Cat. 7 Ethernet cables expand the network and bus cable program. In addition to numerous innovations from the industrial cable field, the new catalogue also contains important background information about highly-flexible cables, provides valuable tips about how to install C-track-capable cables correctly, and what you need to be aware of when selecting industrial cables.

The new catalogue can now be ordered in a printed version from LÜTZE and is also available as an online version at www.luetze.de. The 'Cable Solutions 2019' catalogue is available in the following languages: German, English, French and Spanish.
